5 or more - POA

**Planting Instructions
provided**

Feijoas are hardy and tolerant to temperature extremes from -7c to 40c.

They can be trained into thick, fire retardant hedges with excellent potential for a fruitful bonus.

- They can grow to 5m as a shady tree or be pruned with potential for a fruitful bonus
- Very attractive when grown in large decorative pots.
- The fruit is uniquely tasty with excellent healthy properties
- Juice is full of flavour and can be used in cooking or in Ice Cream
- Beautiful (edible) flowers

We can arrange delivery to you at very reasonable cost

(Delivered to all states except Tas & WA due to State regulations)
